Fds a report on the matter

4) The total arrears of the Annual maintenance charges of the Konanur water works for the years 1935-36 to 1941-42 for the years mentioned amount to Rs 11,891-9-0 out of this a sum of Rs 5,800 (approx) relates to the years 1940-41 & 1941-42 and nothing has been paid during these years

5) It is seen that action has been taken to recover the arrears due by the several Local Bodies but the Controller too has been requested to assist the amount due from out of the closing balance of the bills in this case. Due to stringent action being taken there was some appreciable improvement in the recovery of such charges during 42

6) In spite of action being taken and reminders having issued to the Concerned authorities it is very hard to recover these charges. So the Director has proposed a few certain lines of action to be taken in cases of defaults on which he solicits the orders of Govt

13) The procedure laid down in G O No L.26-46/Ml 181-37-4 dated 2-7-1938 is sufficient as regards the recovery of overdue amounts from the Municipalities But this order can be given effect to by this office by insisting on recovery only when it is found from the treasury accounts that there is sufficient balance at the credit of the local body to cover the dues and also for meeting the essential expenditure such as Establishment charges In other cases needful action has to be taken by the Deputy Commissioners to obtain Government sanction for payment of arrears in instalments which should be regularly paid along with the current year's demand It is also desirable that the instalments are paid by the Municipalities regularly and not allowed to accumulate into heavy arrears and that the department of Sanitary Engineering addresses this office to effect recoveries before the instalments fall into heavy arrears and become impossible of being recovered from the balances at the credit of the Municipalities

14) Draft G.O. put up for orders

15) The Sanitary Engineer has furnished a note explaining the circumstances which led to the accumulation of arrears of annual maintenance charges in the Konamur Municipality. The facts reported in the note apply to all municipal towns and Panchayats in Konamur District where the arrears have progressively increased from Rs. 795/15/1 in 1935-36 to Rs. 11891-9-0 now. It will be seen from the statement of action taken that stringent action was taken only from June 1940 onwards. The Planners however there in the D.C.'s proceedings of the 11th concerned, pursuant thereto was told that there was no response

16) The Dy. C.A.-H has suggested certain detailed instructions being issued in the matter. The Comptroller whom was consulted on the matter has expressed

b) I do not see much advantage in the opinion that the procedure laid down in Govt Sec dated 2nd July 1938 would be sufficient Flag A for the recovery of arrears in certain cases in the circles represented by the Dir of P & T in the instructions proposed by him for being issued maybe approved as they would for the supplement the procedure laid down in the letter dated 2nd July 1938 Flag B

SIR, Re. Arrears due on the Annual Maintenance of Konanur Town Municipality Water Works

---

With reference to your memo No L 292 dated 11th July 1942 enquiring why such heavy arrears of water supply maintenance charges amounting to Rs 11,000/- were allowed to accumulate and who is responsible therefor, I have the honour to enclose herewith a copy of a Note on the subject received from the Sanitary Engineer detailing the action taken towards the recovery of the arrears in question

It has been very difficult to collect the arrears though frequent reminders are sent Under the circumstances, the following recommendations are made

1 The Sanitary Engineer will send intimation annually in the month of April as to the monthly payment to be made by the Municipality for the maintenance of the water works for the next year

2 The Municipality should credit the amount in the Treasury on or before the 10th of every month in advance

3 In default of payment by the Municipality, the Sanitary Engineer should send three weekly reminders sending copies of the same to the Deputy Commissioner concerned

4 If no payment is made in spite of the above, the Sanitary Engineer should send information to the Comptroller for adjustment of the monthly instalments sending the copy of the same to the Deputy Commissioner of the District for information Necessary adjustment should be made by the Comptroller on such requisition

In the matter,

I have the honour to

Sir,

Your most obedient servant,

Director of Public Health.

Circular letter No 1659-87 dated 24th June 1942 from the Sanitary Engineer, Bangalore, to all the Deputy Commissioners of Districts

---

I have the honour to forward herewith an extract from the D C B Register of this office pertaining to the Annual Maintenance of the Water works in your District for the quarters ending with December 1941 and March 1942 and to state that the Presidents of the respective municipalities may kindly be instructed to arrange for the immediate payment of the balance due According to Government Order No L 26-46/M1 181-37-4 dated 2nd July 1938, 1/12th of the estimated amount of each water work is payable in advance on the 1st of each month This rule is not being followed by any of the Municipalities The statement of expenditure is being sent to the Presidents of every month and a consolidated quarterly statement is also sent In spite of these, there has been no prompt payment and the arrears is mounting up I therefore request you to kindly see that the full outstandings are credited before the close of the current year Government have made severe observations and asked me to explain why action is not taken by me as per rules to adjust the outstandings As such, it will be necessary for me to advise the Comptroller to Government of Mysore, to adjust the amounts from out of the cash balances of the concerned municipalities I request you to issue suitable instructions in the matter to the Presidents of local bodies to clear the arrears

Thanking you for favour of intimating action taken

Circular Memo No 1688-1714 dated 24th June 1942 from the Sanitary Engineer, Bangalore to the concerned Municipal Councils

G O No L.26-46/M1 181-37-4 dated 2nd July 1938, issuing certain instructions regarding the procedure to be followed for the recovery from the Local Bodies of the annual maintenance charges of the water works under the control of the Bureau of Sanitary Engineering

2 Correspondence ending with letter No C 58-53 dated 11th December 1942, from the Director of Public Health, forwarding a detailed report on the accumulation of heavy arrears of the annual maintenance charges of the several water supply works under the control of the Bureau of Sanitary Engineering due by the concerned Local Bodies and stating that the Local Bodies have not been prompt in the matter of payment of the annual maintenance charges as required in the G O read above and requesting approval ~~required~~ in the circumstances stated, to the adoption of the detailed procedure in regard to the recovery of the arrears of ~~annual maintenance~~ the said charges ~~of the water supply works~~ due by the local bodies

3. U.O Note No 378/VAD 1 dated 1st December 1942 on the subject from the Comptroller to Government

---

ORDER NO. L 9090-9102

Dated, Bangalore, the February 1943

It has been brought to the notice of Government that the arrears of annual maintenance charges of the several water

works under the control of the Bureau of Sanitary Engineering due from the Local Bodies have accumulated into heavy proportions, with the result that, at the end of the quarter ended 30th September 1942, the outstandings from local bodies stood at Rs.2,34,570/-

Government regret to observe that the action taken by the Sanitary Engineer in regard to the ~~prompt and timely~~ recovery of the said arrears ~~of the said charges~~ is inadequate and belated and the existing state of affairs could have been avoided, if the instructions contained in the G O dated 2-7-1938 had been strictly observed, and if the Deputy Commissioners of the Districts had also insisted upon the local bodies paying their dues in this behalf regularly, especially when intimation of the default on the part of the local bodies concerned in the district was sent to them

The Comptroller to Government who was consulted in the matter has expressed the opinion that the procedure now in force is sufficient for the recovery of overdue amounts on that account and that action could be taken by him to adjust the arrears in the treasury accounts only when there is sufficient balance at the credit of the local body concerned over and above the amount required for essential expenditure such as Establishment charges, etc and only before the charges accumulate into heavy arrears and thus become impossible of being recovered in the above manner He has also stated that, in other cases, needful action has to be taken by the Deputy Commissioners concerned to obtain Government sanction for payment of arrears

in instalments which should be regularly paid along with the current year's demand

Government generally agree with the above views of the Comptroller It is however, considered necessary to implement the present procedure in this behalf by the adoption of the following suggestions made by the Director of Public Health so as to clear the position further and ~~in order to~~ thus enable the defaulting local Bodies to rectify themselves in time by paying these obligatory charges -

(what need calls for corrections in Tamil Cases)

1) The Sanitary Engineer will send intimation annually in the month of April to each municipal council or other local body concerned about the budget allotment to be made for the ensuing year and the amount to be paid by it every month for the maintenance of the local water works,

2) The local body should credit one-twelfth of the amount in the treasury on or before the 10th of every month in advance,

3) In default of payment, the Sanitary Engineer should send three weekly reminders to the local body, sending copies of the same simultaneously to the Deputy Commissioner concerned The Deputy Commissioners should, at the same time, insist on the local bodies to make prompt payments ,

4) If no payment is made in spite of the above, the Sanitary Engineer should send intimation to the Comptroller for adjustment of the monthly instalments in the Treasury accounts, sending a copy of the same to the Deputy Commissioner of the District for

Effective arrangements should be made in the Office of the Bureau of Sanitary Engineering for watching the recoveries in accordance with the above instructions
